The Adjustable Bath & Shower Seat can be used in a shower stall or bathtub. The seat is constructed of durable plastic with easy-to-grip handles and a notch to hold a hand-held shower spray. The aluminum legs are flared to help prevent tipping, and the slip-resistant rubber tips provide added stability.

- **Comfortable contoured seat and backrest.** The bath chair combines shower safety and comfort with a contoured design for long periods of sitting.
- **Holds up to 350 lbs.** The heavy-duty shower chair is made of durable molded plastic with aluminum legs. The aluminum frame flares help distribute weight for safety and stability.
- **Built-in handles provide stability.** The shower seat for seniors features side handles for a grippable support surface. This makes it an ideal handicap shower seat by preventing falls and slips.
- **Height adjustable from 14" to 20".** The adjustable shower chair easily adjusted with the push-of-a-button on each leg. Having the correct shower seat height is essential.
- **Easy, tool-free assembly.** The shower chair for elderly assembles in minutes with no tools needed. It can be taken apart to be used as a convenient travel shower chair.
- **Available with or without back.** [Find the bath and shower chair with a back here.](#)
