Technical Specification

75ft Large Metal Open Reel

OTLP751512G4SL-US

Features

- » Heavy duty SGCC steel drum with two-tone carry handle
- » Safety thermal breaker with reset button
- » Integrated on/off switch with safety overload
- » Power LED indicator and built-in cord guide

Description

Designed and engineered for longevity, this heavy duty metal reel provides an ideal portable power solution. The steel drum provides reliable protection when in use, transported or stored. Using 75ft 12/3-gauge highly visible orange cable, this range of extension reels provides 4 x 120V sockets (rating of 15A), LED indicator, power switch with safety overload, and a thermal breaker with reset button. The thermal breaker reduces the risk of fire due to temperature rise caused by power overload.
